Here is an example of how the Mars 360 system would work for the Mars-3 demographic. Here is a sample of charts below, all of which would be classified as Mars-3. First notice the layout of the seals and apply that to the charts below.

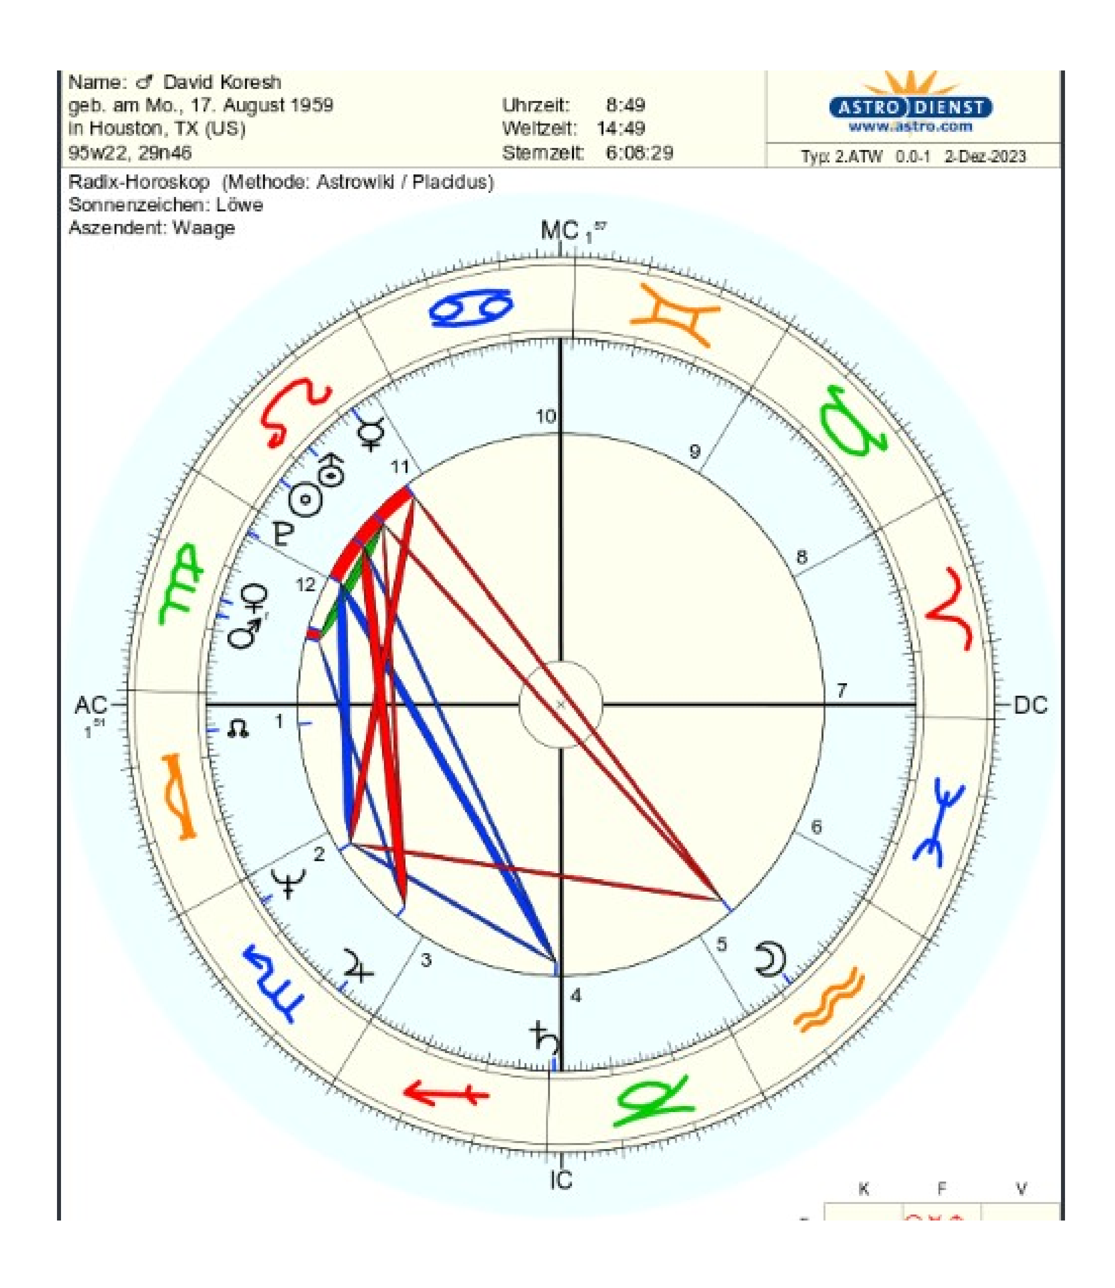

Notice where the 3rd seal is located. The 3rd seal is designated as causing a person to lack the energy to concern himself with his home and physical safety or places that are safe. These are physically restless people and under Mars 360, these types would have free access to pasport priveledges. At birth, however, these archetypes would be designated libertarian and unpatriotic anti-government domestic political dissidents as well as potential sexual perverts/sex addicts. If the military draft was reinstated, these archtypes would be at the top of the list. A standout characteristic of these types is an inability to stay home, hence why many of these are active in sports. The people on the list are David Koresh, Joe Biden, Arnold Schwarzenneger, Sigmund Freud, Aleister Crowley, Michael Moore, Michael Douglas, Charlie Sheen and Karl Marx

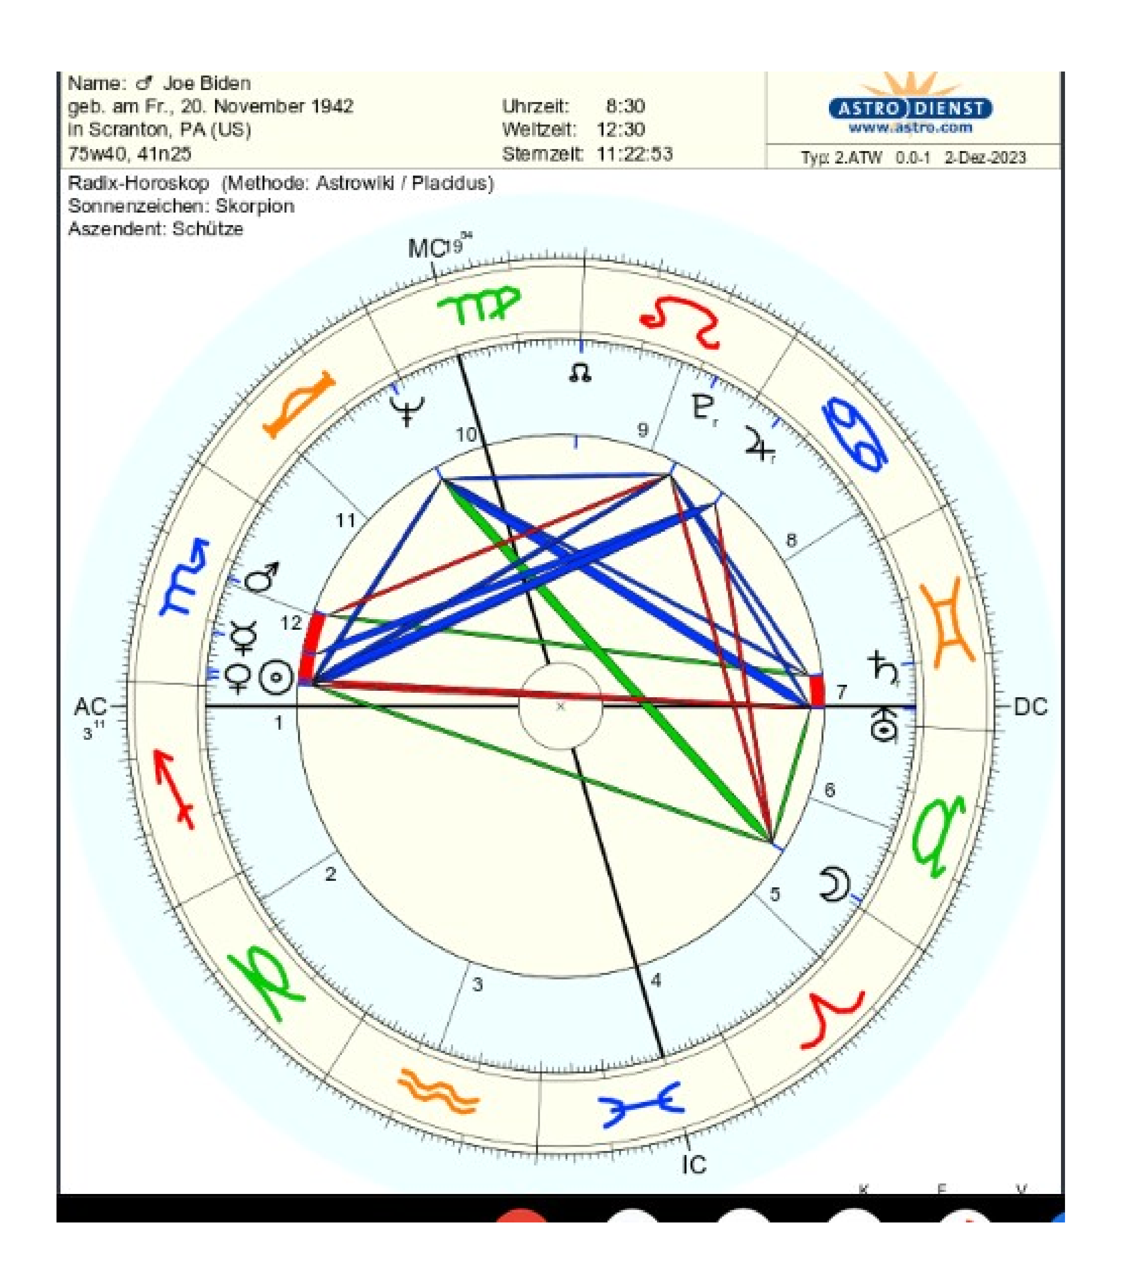

This archetype lacks the energy to concern himself with the basic necesities of everyday survival, such as staying safe, sheltered, eating the right foods, and remaining confined. The result is that these types expend a lot of energy being away from home. They also engage in activities that could be risky and hazardous. These are also inclined to extreme anti-patriotic leanings. Under Mars 360, freedoms regarding the body, physical consumption and travel would be granted to those born with this placement. Also, Mars 360 may have to drop the age of consent for these archetypes. These archetypes may also be exempt from religious laws regarding the use of the body.

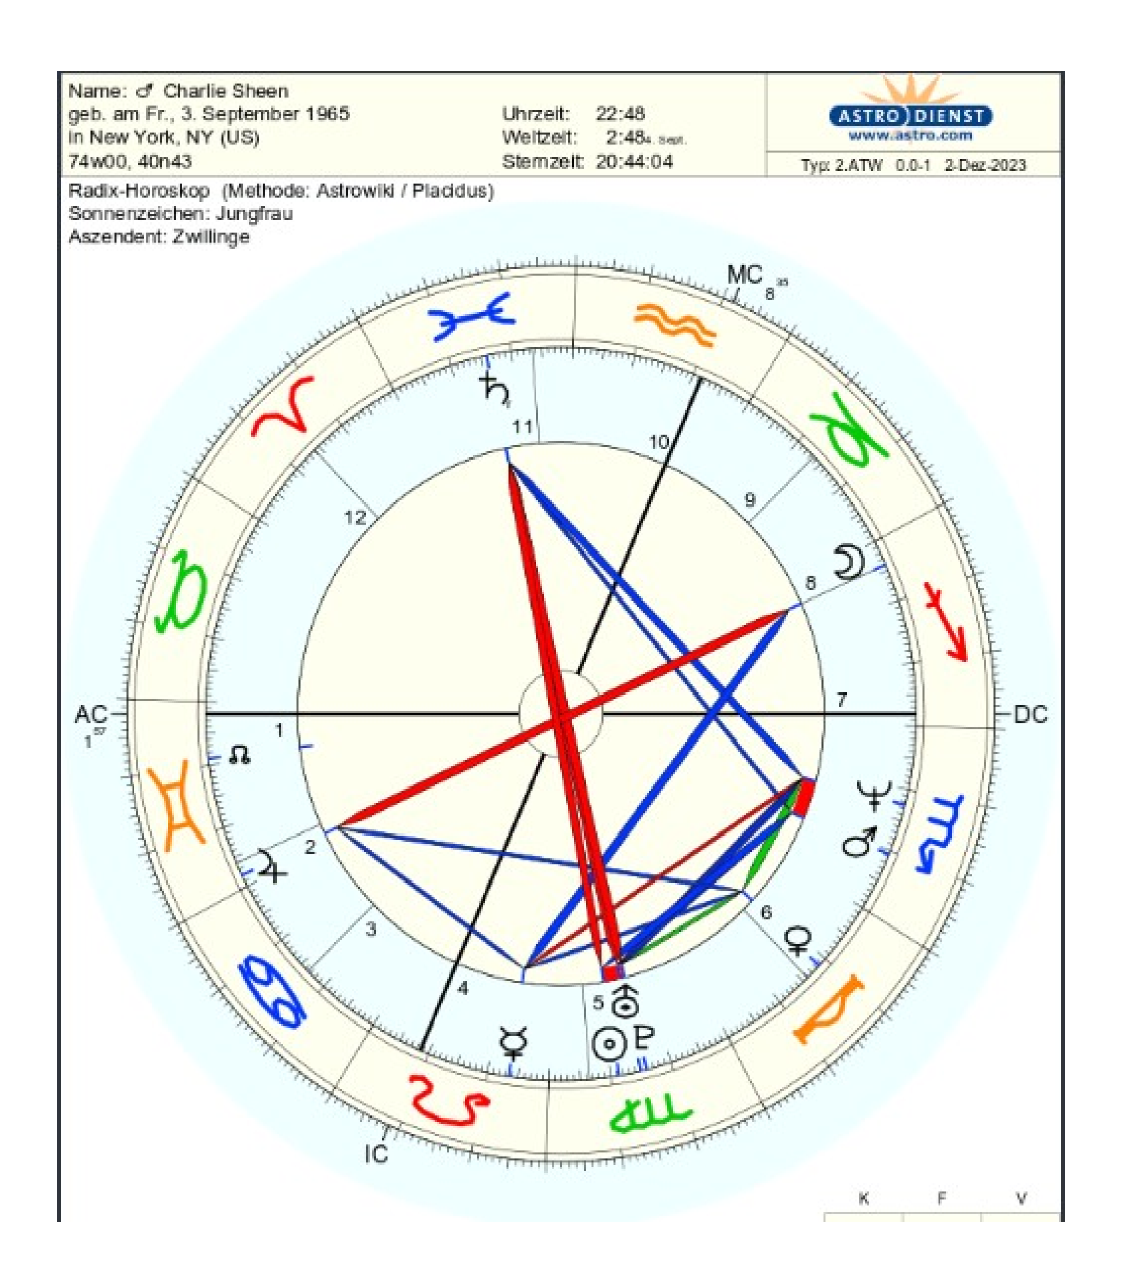

So now, here are the charts

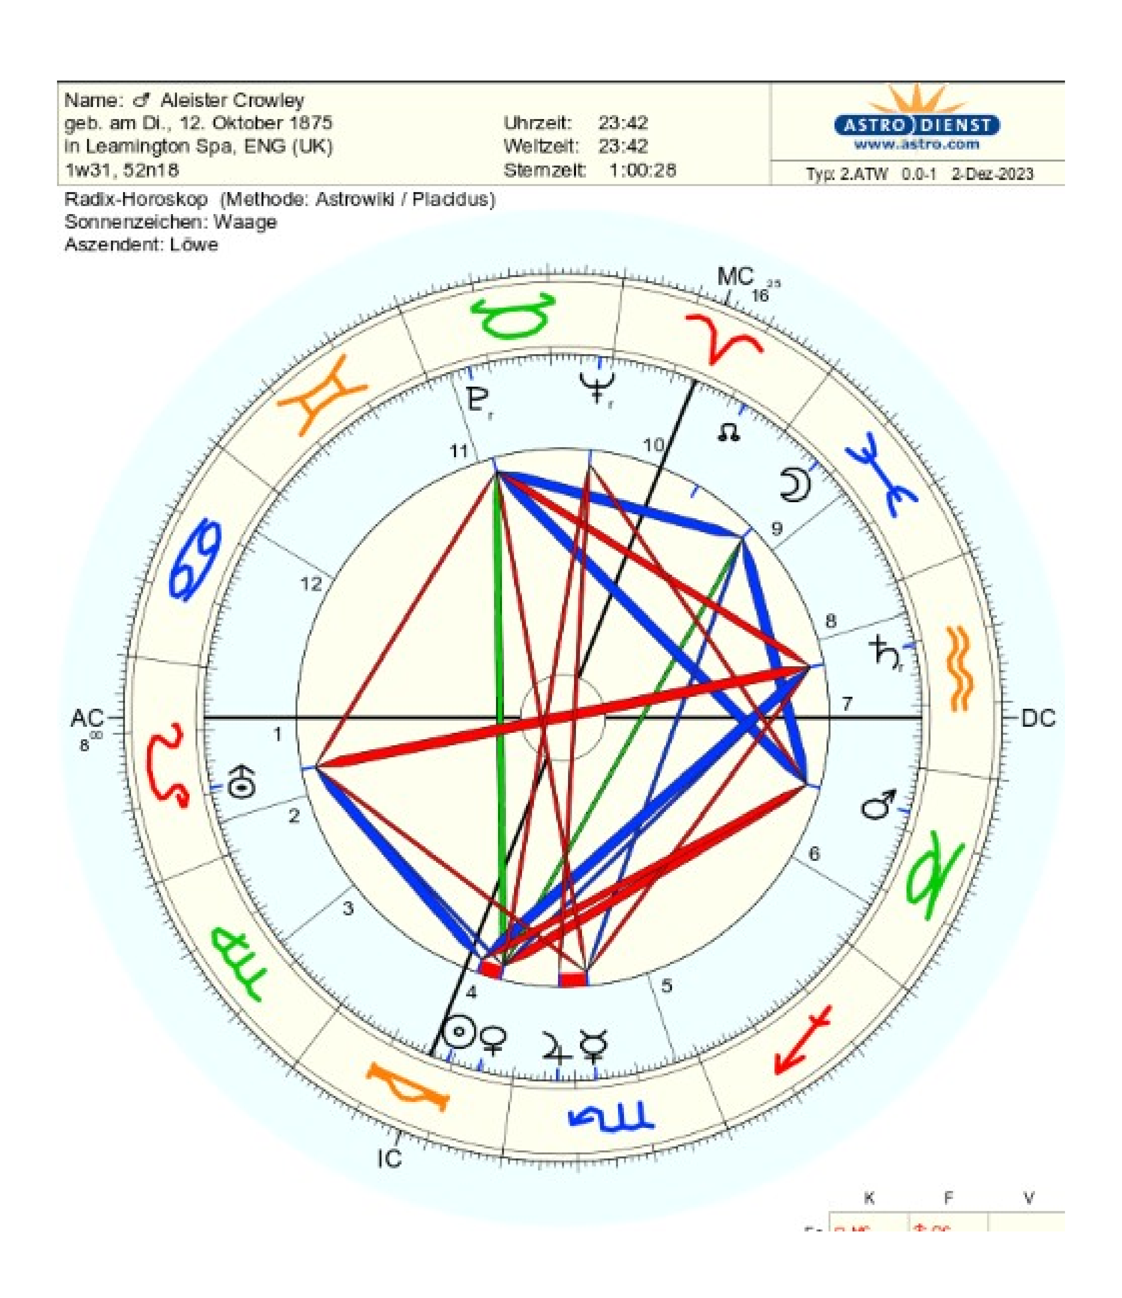

This is David Koresh, who was a polygamist preacher for the Branch Davidian Sect of the Davidian Adventist Church. He was accused of sexual perversion, and also held anti-government views, acquiring a large arsenal of weapons, which led to a standoff with the ATF and his eventual death. As leader of the movement, he held his followers to strict standards of consumption, while he remained free in this manner, taking liberties with food and drink, as well as sex, all in libertarian fashion.

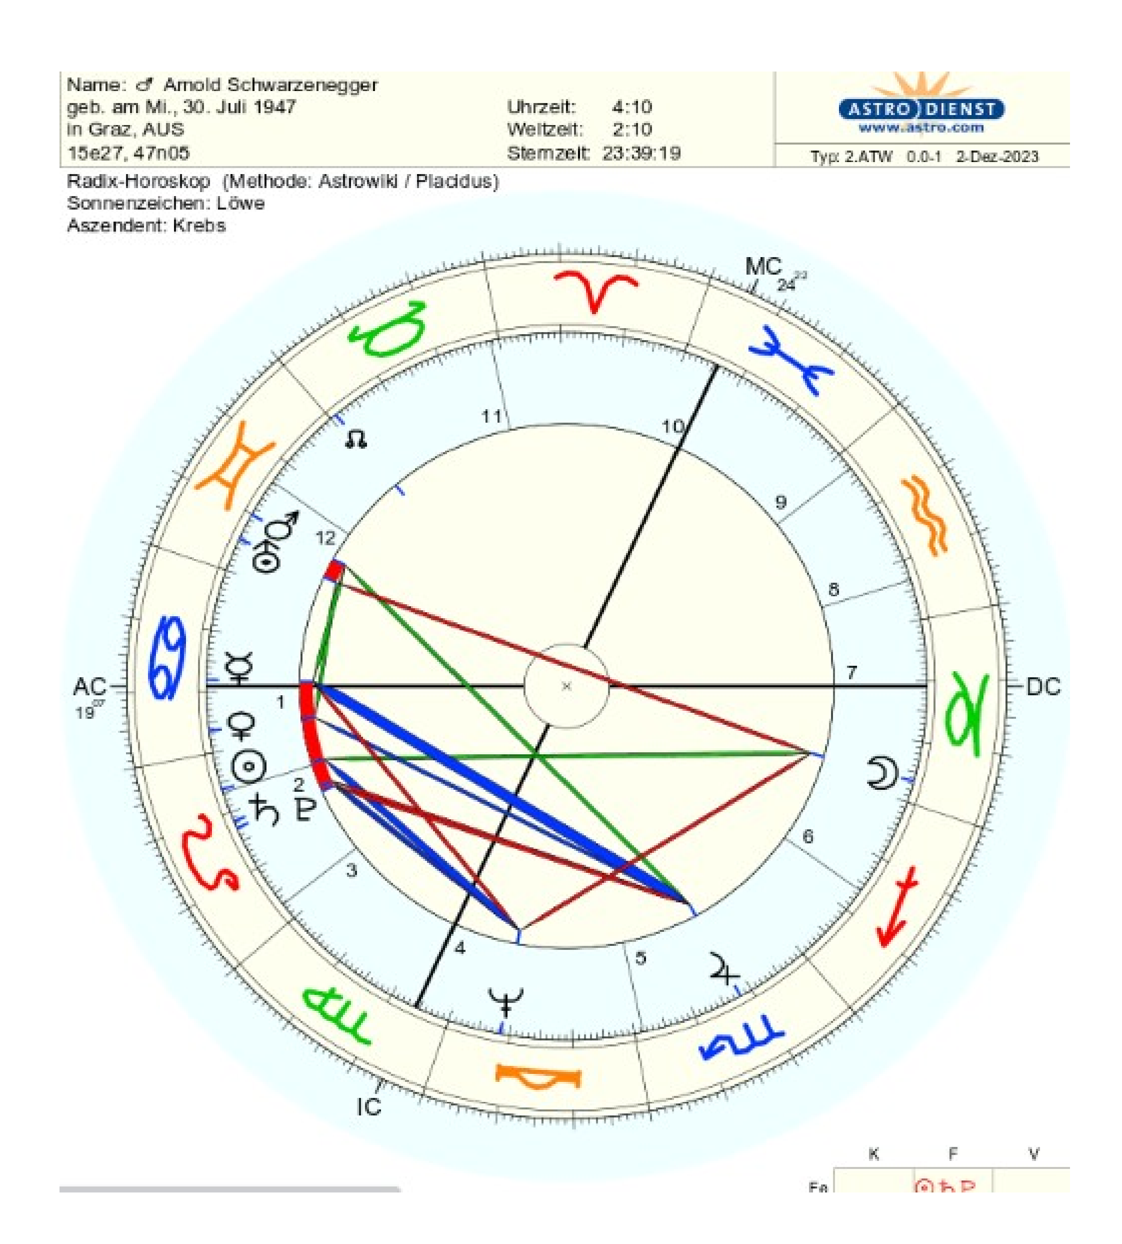

Joe Biden, president of the United States, is believed by many to be driving his own country into the ground with policies that are anti-domestic and un-patriotic. Many of his detractors consider him to possess an anti-domestic, America-last outlook. This could be the result of his Mars location in the 3rd seal. Unable to retire, his restlessnes, keeps him active in politics, despite his age

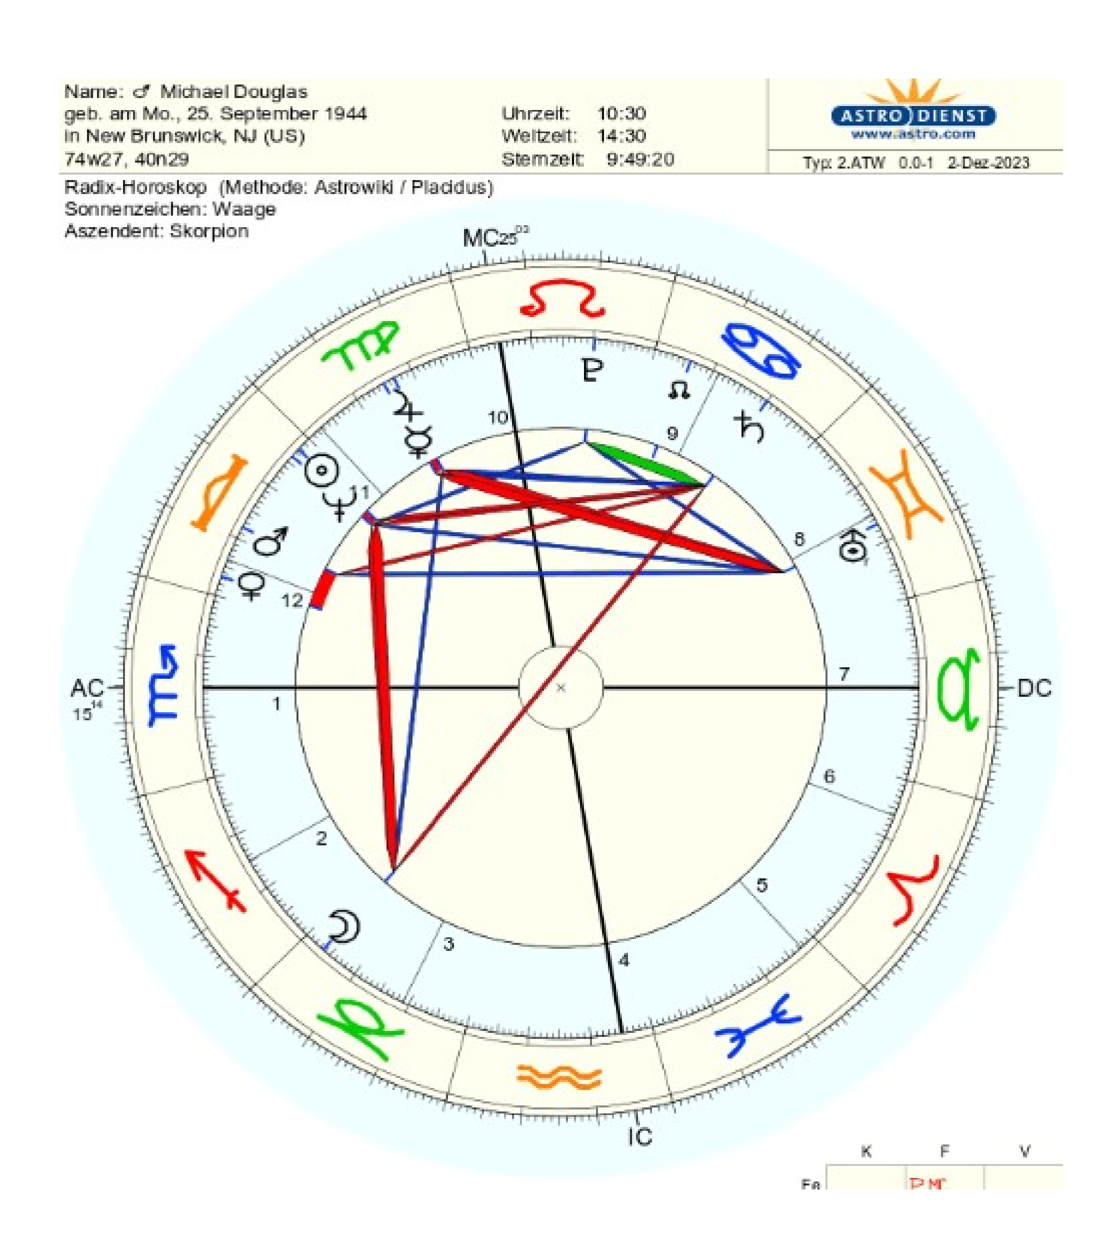

Charlie Sheen is a classic Mars-3, having led a life of sexual addiction, acquiring HIV in the process. He has also consumed whatever he pleased in classic libertarian fashion. His anti-government side came out after the 9/11 terror attacks in which he accused his own government as having played a role in orchestrating the atttack.

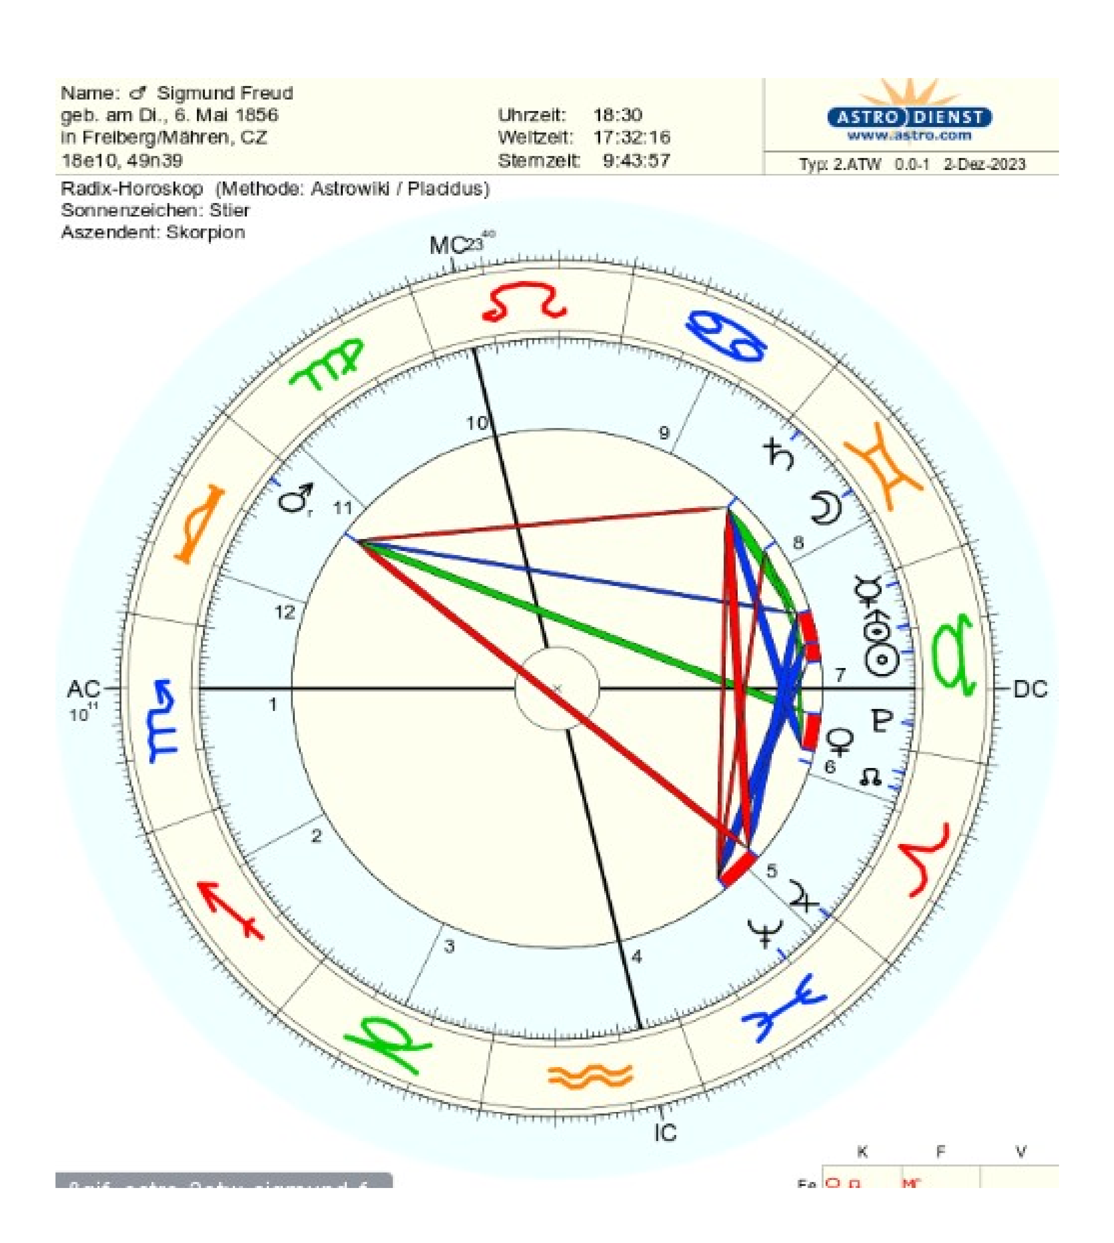

Aleister Crowley is another Mars-3 archetype, leaving a legacy of sexual perversion/addiction and being a drug fiend

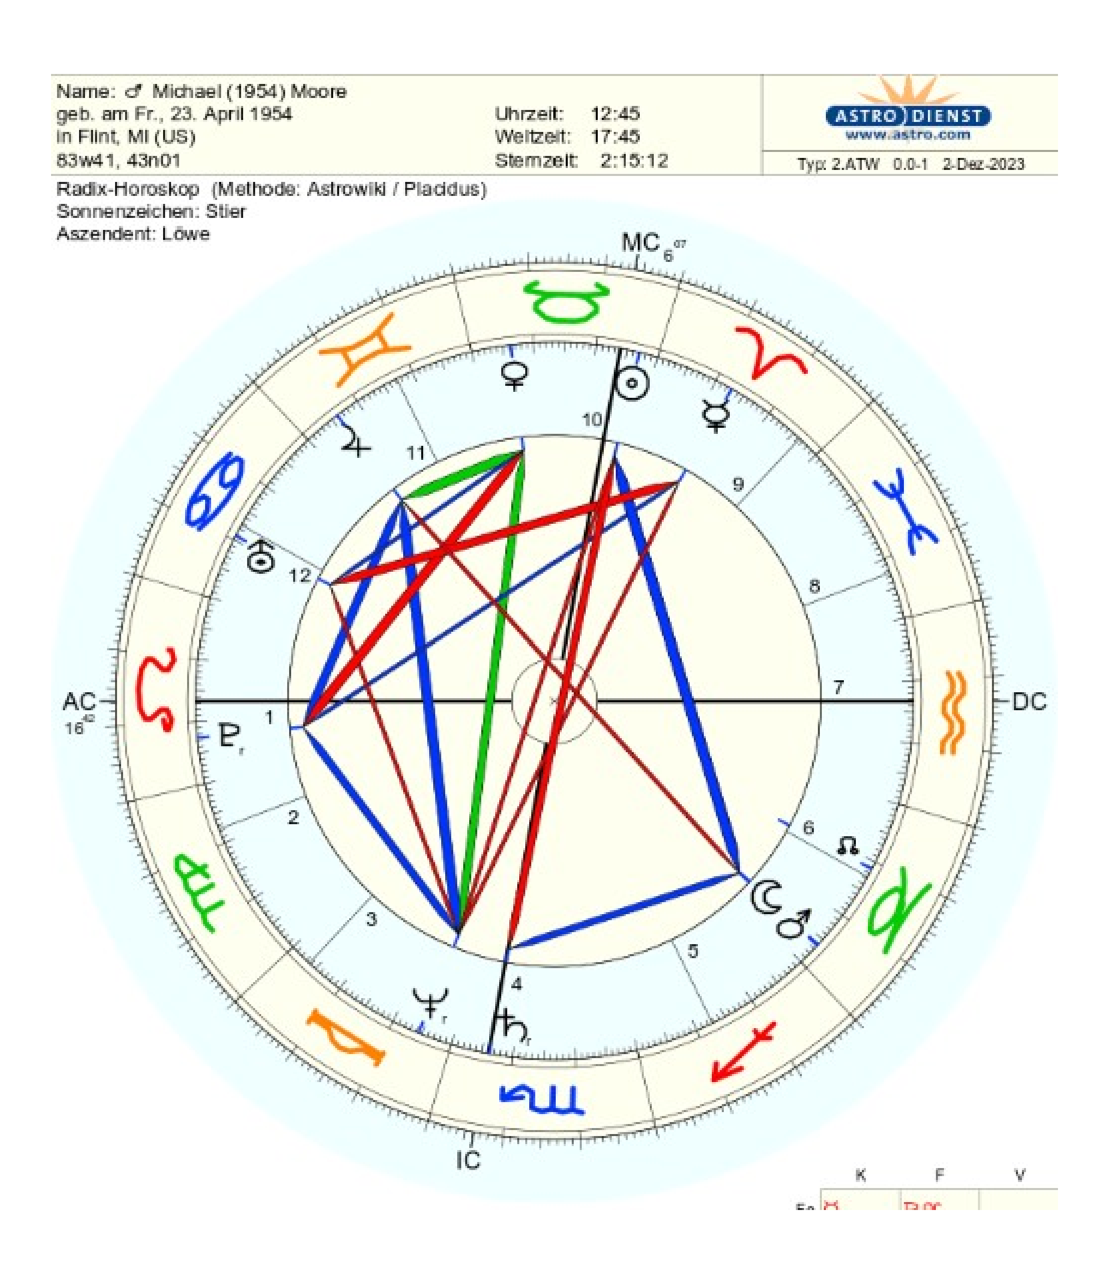

Arnold Schwarzenneger, a Mars-3, is an example of how the restless energy regarding this placement can lead to success. Unable to stay home, he has had success in many endeavors, like bodybuilding, acting, and politics. He has also had numerous run-ins with accusations of sexual perversion.

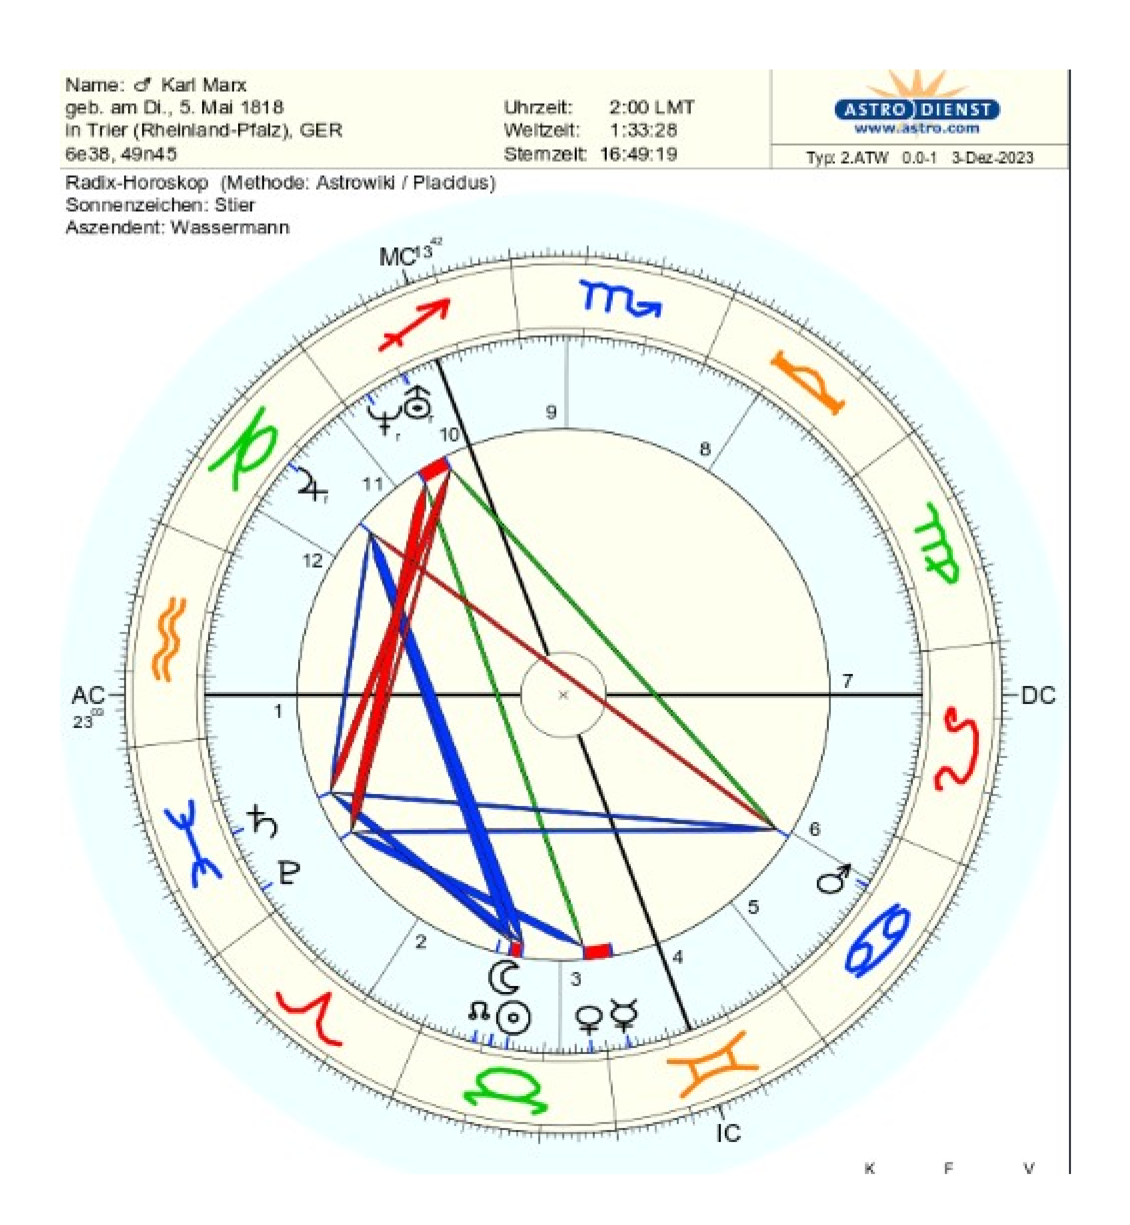

Michael Douglas is a Mars-3 archetype, valuing freedom, and placing career over home life. Was accused of being hospitalized for sex addiction in the early 90s

Sigmund Freud, the father of moden psychology and a Mars-3 archetype, was obssesed with sex and cocaine.

Here is the chart for Michael More, a Mars-3, who is very anti-government, especially during the Bush administration. He often criticized the government for the war in Iraq. He is also a strong proponent of freedom of consumption and physical movement. He doesn't care about his diet

Karl Marx, author of the “Communist Manifesto,” is also a Mars-3 archetype, perhaps the most notable, encouraging dissidence worlwide. The sexual revolution and sexual fredom movement has roots that come from Marxism’s anti-religion stance. Abortion and the “my body my choice “ moniker is a major characteristic derived from communist/libertarian ideas.

This is an example of how a new demographic created under the Mars 360 system transcends racial, cultural and even national boundaries. This one world system is explained in the book “The Mars 360 Religious and Social System”
